Junior Associate Examination

Candidates may have the Junior Associate Examination in the discipline they have completed. There will be a written examination and an oral examination with a CDTA Examiner. Marks will be calculated as a combination of the written and oral examination plus "in class" evaluation of participation. Upon completion and success of your examination you will receive a one year Junior Associate membership, you will be eligible to enter students into examinations in Preliminary, Primary and Grade 1 plus Medals, badges and Enrichment up to Grade 1. In the case where the instructing examiner feels the candidate is not ready for the certification, examination guidelines for further study shall be provided and a 15 minute one-on-one session with the examiner will be held to help prepare the candidate for a future certification. The certification will be valid for two years after which a candidate will be required to apply for the "Associate" examination.
